DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-3, 8-10, 25-31, 33 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by U.S. Patent No. 6,222,530 to Sequeira.

As per claims 1-3, 8-10, 25-31, 33, Sequeira discloses the limitations of these claims (see at least the abstract),

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-7, 11-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sequeira as applied to claims 1-3, 8-10, 25-31, 33 above, and further in view of the examiner taking official notice.

As per claims 4-7, 11-13, Sequeira does not specifically disclose the limitations of these claims. However, the examiner takes official notice that these features are well known in the art. It would have been obvious to anyone having an ordinary level of

Art Unit: 2132

skill in the art at the time the invention was made to have included these features in the invention of Sequeira since these elements comprise known features of such a typical system which attempts to identification routine on events.

Allowable Subject Matter

Claims 14-24 are allowed.

Claim 32 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
